## Education and Inclusion Services

The following points need to be considered when using this report:

- The data is drawn daily from Schools' SIMS systems. Schools are often required to retrospectively update their respective systems in year. The summary data is therefore subject to minor fluctuation. Any amendments made by schools will be re-extracted on the next working day, and recalculated in the next published version of this report.
- Schools currently have 1 week following the return after a 1/2 term or term break to update their data. Please note the date the report was refreshed in order to place this lag in context.
- The calculations for % attendance is undertaken exclusive of missing marks. This ensures the figure will match with the respective school SIMS figure, which does not include missing marks in its calculation.
- Missing marks are shown but are not included in any calculations. A large number of missing marks may have an impact on a school's actual attendance percentage.
